VALIDATION SHEET

EVALUATION OF IMPLEMENTATION OCCUPATIONAL SAFETY AND HEALTH MANAGEMENET SYSTEM (OSH MS) IN THE IRRIGATION MODERNIZATION PROJECT LONG SECTION SECUNDER PACKAGE 02 TO PP NO. 50 TAHUN 2012

(Case Study: Irrigation Modernization Project Long Section Secunder PT. SAC Nusantra)

FINAL PROJECT

Submitted and defended in the Final Project Awareness Examination in front of
the Board of Examiners
At the date of: 4th July 2022
Submitted by:

HAEKAL FADILAH SANTOSO
NIM: D100170148

Composition of the Board of Examiners

Supervisor

Ir. Muhammad Nur Sahid, M.M., M.T.
NIP : 1966.0911.1995.02.1.001

Examiner I

Anto Budi Listyawan, S.T., M.Sc.
NIDN. 0622036101

Examiner II

Budi Privanto, S.T., M.T.
NIDN. 0608116701

This final project is accepted as one of the requirements to achieve a Bachelor
degree in Civil Engineering
Surakarta, 4th July 2022

Dean,

Rois Fatoni, S.T., M.Sc., Ph.D.

NIK. 892

STATEMENT OF FINAL PROJECT AUTHENTICITY

Bismillahirrahmanirrohim,

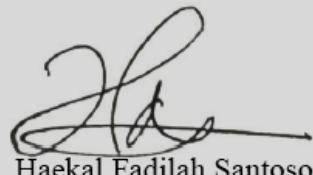

The Undersigned below :

Name : Haekal Fadilah Santoso
Student ID : D 100 170 148
Faculty / Department : Engineering / Engineering Faculty
Title : EVALUATION ON THE IMPLEMENTATION
OF OCCUPATIONAL HEALTH AND SAFETY
MANAGEMENT SYSTEM (SMK3) IN THE
IRRIGATION MODERNIZATION PROJECT
LONG SECTION SECUNDER PACKAGE 02 TO
PP NO. 50 TAHUN 2012 (Case Study: Irrigation
Modernization Project Long Section Secunder
Package 02 PT. SAC Nusantra)

I am as the author declare that, this Final project is prepared and presented by myself, except the quotations and summaries that I have explained from all of the sources and put on the references. If in the future found this Final Project is a plagiarism product, then i will to accept sanctions in accordance with the rules that have been created.

DEDICATIONS

With great gratitude to Allah SWT. I dedicate this final project specifically to the parents of my beloved father and mother who always give their attention, support, encouragement, and prayers for their blessings, so that I can complete my education up to the bachelor's level. Thank you for all the hard work and all the sweat that has poured out for each process up to now.

Thank you for all the hard work and all the sweat that has poured out for each process up to now

PREFACE

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu'alaikum Warahmatullahi Wabarakatuh.

Alhamdulillah, Praise and great gratitude submitted to Almighty God, Allah SWT who always gives her gracious mercy and tremendous blessing that has helped the writer finishing this research. This research is as a requirement in accomplishing the S-1 Degree at the Civil Engineering Prgram Faculty of Engineering, Universitas Muhammadiyah Surakarta.

The writer would like to thank to all of those who have given the contribution so that this script can be finished. The writer would like to deliver this thank to:

- 1) Mr. Rois Fatoni, S.T., M.Sc., Ph.D., as Dean of the Faculty of Engineering, Universitas Muhammadiyah Surakarta.
- 2) Mr. Anto Budi Listyawan, S.T., M.Sc., as Chairman of the Civil Engineering Program Muhammadiyah University of Surakarta.
- 3) Mr. Ir. H. Muhammad Nur Sahid, M.M. M.T, as Supervisor Final Testing Team as well as the chairman, who has provided encouragement, direction and guidance.
- 4) Parents and the entire family of writer who always provide support to the author to completing this final project.
- 5) Anobrain as the writes's best friend in college. Thank so kuch for our help and support.
- 6) Thank to the big family of Civil Engineering International "CESA" which has provided support and encouragement.
- 7) All friend of management construction final project who welcomed the writer into their environment and thank for your time and help.

We wish all the help given, wlways get the blessing of Allah, and I hope this final project can give benefit for all of us.

Aamiin.

Wassalamu 'alaikum Warahmatullahi Wabarakatuh.

ABSTRAK

Industri konstruksi merupakan salah satu industri yang paling dinamis dan responsif terhadap perkembangan ekonomi suatu bangsa. Hal ini juga berdampak pada perluasan lapangan pekerjaan dan membangkitkan minat masyarakat untuk menjadi tenaga kerja di proyek konstruksi. Dalam pelaksanaan proyek konstruksi tentunya rawan terhadap resiko kecelakaan kerja dan penyakit akibat kerja. Kecelakaan kerja yang terjadi dapat menyebabkan proyek terhambat atau terhenti dalam kegiatan pekerjaannya. Untuk mengatasi hal tersebut maka dilakukan review sistem yaitu penerapan sistem manajemen keselamatan dan kesehatan kerja (SMK3) yang telah diatur dalam Peraturan Pemerintah Republik Indonesia Nomor 50 Tahun 2012. Dari hasil penelitian yang dilakukan pada Daerah Aliran Sungai Proyek Modernisasi Bagian Panjang Sekunder di Indramayu, di dalamnya; Penerapan Sistem Manajemen Keselamatan dan Kesehatan Kerja (SMK3) telah dilaksanakan sesuai dengan rangkaian proses SMK3 konstruksi, dan masih ada yang belum terpenuhi. Hasil pelaksanaan SMK3 berdasarkan PP Nomor 50 Tahun 2012 untuk tingkat awal sebanyak 64 kriteria mendapatkan persentase sebesar 82,81% dengan total kesesuaian 53 kriteria termasuk dalam penilaian Memuaskan.

ABSTRACT

The construction industry is one of the most dynamic and responsive industries to the economic development of a nation. This also affects the expansion of jobs and generates interest in the community to become a workforce in construction projects. In the implementation of construction projects are certainly prone to the risk of work accidents and diseases caused by work. Work accidents that occur can cause the project to be hampered or stopped in its work activities. To overcome this, a system review was conducted, namely the implementation of occupational safety and health management system (SMK3) which has been regulated in Government Regulation of the Republic of Indonesia Number 50 of 2012. From the results of research conducted on the Rentang Irrigation Modernization Project Long Section Secunder in Indramayu resulted in that; The implementation of Occupational Safety and Health Management System (SMK3) has been carried out in accordance with the series of construction SMK3 processes, and there are still unfulfilled. The results of SMK3 implementation based on PP No. 50 of 2012 for the initial level as many as 64 criteria get a percentage of 82.81% in a way with a total suitability of 53 criteria included in the assessment Satisfactory.
