ABSTRACT

The major problem of this study is to reveal how the major character solves his inner conflict based on the structural elements and to analyze the novel based on the psychoanalytic analysis.

In analyzing Novel Saman, the reseacher uses qualitative method and psychoanalytic approach. The object of the study is Ayu Utami's novel Saman published 2008 by KPG (Kepustakaan Popular Gramedia). The primary data source is the novel Saman itself and the secondary data source is the other sources related to the analysis such as the author biography and books of literary theory. In this research the researcher also use psychological books, especially psychological book which discussing about psychoanalytic theory by Sigmund Freud. The method of data collection is library research. The technique of data analysis is descriptive analysis.

The outcome of the study shows that the problem faced by the major character causes the conflict of his mental condition. It brings him to moral anxiety that influences his personality. Finally, the change of personality makes him suffer in the end.
