There are eight illustrations in The Miracle Worker movie, they are:

3.2.1 Showing Professionalism

Teacher wants to be looked as a perfect person in front of their students. So, it means that if teacher has weakness, they still can handle the problem when they are in front of their students. From the response above means that Anne as teacher hides the weakness she has. So, she has to be looked she can handle Helen as her student who is a handicapped girl. And the response tells that Helen is an unusual pupil for Anne. For the explanation, Helen is a blind and deaf-mute. Anne realized that the solution of her student comes from herself. In this world, everybody needs someone that work honestly. The movie actually tells about Helen, a handicapped child that cannot do anything without help from others. Here Anne Sullivan as her teacher like becomes a hero for her because Anne always tries to make Helen become an independent child. Anne before did not recognize Helen, and never meet before but she honestly helped Helen to communicate to other. Even though it is her difficult work, but Anne always keep her struggle to make Helen know the world.

The reviewer said that Anne has great struggle to handle a handicapped girl like Helen. Anne knows that actually Helen is a smart girl but because she is disabled she act like a crazy child who is usually rough to Anne. Anne does not give up. She always tries to make Helen know the world.

Teacher should be educated people because they need to share their knowledge and experiences with their students. Anne could see hope in Helen. She considers that Helen has a great talent actually. Teacher is very important in our life. They bring us to the smarter than before. They care to us in order to they want us to be someone that will be success in our life. Teachers want us to be the smarter than them. They are so sincere. Like the scenes of the movie which shows that Anne Sullivan is always sincere to teach Helen even though

The reviewers are influenced by the context when they concern about encephalitis especially those that are not handled properly. So that people who is suffering from encephalitis cannot live independently. And if there are people who suffer encephalitis but they can live independently, it means the parent or teacher is extraordinary. So that a teacher who can stand students who suffer from encephalitis means is a very extraordinary teacher.

From the data, there are many qualifications of great teacher. They can be an idealistic, upstanding, competent, talented, brilliant, educated, precious, sensible, skillful, and encouraging person. The data shows that almost of great teacher have mental characteristic of people. Almost of the reviewers drop the comment to The Miracle Worker movie that concept teacher is universal. It means that there is no difference of great teacher around the world. American teachers, China’s teacher, and others may be same. Great teacher is always reputed as same as in other countries. Great teacher have good qualities of character of a person. So, it means that person who does not work as teacher also can be teacher to whomever they can give and share the knowledge and the experiences.

The researcher has analyzed 90 reviewers from IMDb, but not all the data belongs to great teacher. There are only 14 data that belong to great teacher. There are 3 kinds characteristic of great teacher, they are moral, social and mental. Part of moral characteristic is idealistic and upstanding. Part of social is encouraging. teacher should give example to the students. Fourth, teacher should give great support to their students. Fifth, teacher should give attention more to students. Sixth, teacher should spread the positivity to students in order to student can motivate themselves.
