

CHAPTER III

RESEARCH METHOD

This chapter discuss namely, type design of research, research object, data and data source, technique of data collection, technique of analyzing data.

A. Type of The Research

A type of this research is descriptive qualitative. Criswell (Criswell, 2014) Descriptive research and the design used in this study uses qualitative design. It is because the researcher is roled as the Key for this research.

B. Research Object

The object of this research types of Slang and Meaning of slang in Nanny Mc Phee Movie in the analysis is the transcript of the movie in English subtitles that is related to slang analysis.

C.Data and Source of Data

The data of this research paper is taken from some types of slang and meaning of slang. The data of this study is the linguistic units such as a phrase, words, clauses, or sentences which are found in the transcript of the movie. The source of data of this research is the movie: Nanny Mcphee. Because the language is different, it is interesting to study. This research is original. And hopefully, there will be other researchers not only from movie but novels or drama from the data Nanny Mcphee Movie. This movie is downloaded from <https://dramaserial.club/nanny-mcphee-2005-jf/>.

D. Technique of Data Collection

The types of techniques of collecting data, this research uses documentation by content analysis and observation. The steps of data collection are as follows :

1. Watching in the Nanny Mcphee Movie
2. Collecting and writing the data
3. Classifying the data

A. Technique of Analyzing Data

After the data collected, the researcher then analyzes them. There are several steps to analyze the data as follows:

1. To explain the types of slang the writer used the theory of Allan & Burridges about the types of slang.
2. Classifying data type of meaning the writer used the theory Geoffrey Leech about the types of meaning.
