ABSTRACT

This research aims to find out about one of the mental health, psychopaths, and the expression of grief contains in the novel The Lovely Bones, to explain the causes of a person has mental health problems such as psychopathic behavior, inhuman behavior, and the author's message to people about the importance of all of us consciousness, to our sensitivity to those around us, with the aim that they do not experience psychopathic deviation behavior or help them so that they can get through difficult times or their grief. This research is qualitative research, the primary data source is The Lovely Bones novel. The secondary data source of this study are books, online journals, thesis, researcher articles, related to this research, the method of data collection is library research. In this study the researchers have several conclusions, first, this study shows that a person's behavior today is always influenced by events they have seen, or experienced, as happened by Harvey who has a human nature. Both researchers found that everyone who went through their hard times would go through at least 5 stages for them to accept their current state. The three researchers found a moral message that everyone who was given the ordeal would always be able to get through it, as long as they believed in themselves, and they were able to come to terms with themselves.
