

CHAPTER V

CLOSING

In this chapter the researcher wants to deliver a conclusion of this research, suggestion and educational implementation. Each part will be elaborated as follows:

A. Conclusion

Based on the analyzes in the previous chapter, the researcher draws the conclusions as follows. First, based on the problem statement of the study, the researcher concludes that the moral values found in the novel as follows friendliness, bravery, respect the parents, and don't judge people. The way moral values are reflected in the novel can be seen by existentialism perspective which can be categorized as subjectivity, conscious being in the world, contingency, anti-materialism, and humanity. Second, based on the second problem the researcher concludes that the way moral values is delineated in the novel through elements of the novel as follows character and characterizations, plot, and settings.

B. Suggestion

The researcher hopes that this study is useful for the readers. The researcher is aware of imperfection of this study. The researcher suggests to another researcher to be able to build up their ability of literature by studying this *Percy Jackson And The Olympians: The Lightning Thief* By Rick Riordan because there are so many issues that could be found in this novel. It is suggested to the other researchers to use different approaches such as: Psychoanalytic theory by Freud. The theory can be used to analyze the personality of the major characters in this novel.

C. Educational Implication

The novel *Percy Jackson And The Olympians: The Lightning Thief* (2005) By Rick Riordan contained some educational implications for the people. Firstly is on students in the school. Through reading this novel, it could be improved their reading skill. The story of this novel combines friendship and kinship. The moral value taken from this novel is people think that motivation comes from anywhere and also from oneself. After reading this novel, students are expected to be braver to chase their dreams.

Secondly, for the student in university especially who are fascinated in literature. This novel can be a good object to observe the data. The other researcher can use another theory to research this novel because this novel has only a few pieces of research.
