

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Social conflict is an aspect that will definitely be experienced by every individual if it is related to community life. In the research that has been conducted on the movie Parasite (2019), the researchers found several conclusions, namely:

1. There are two forms of social conflict found in this study:
 - a. The first is the social conflict between classes. Where this conflict distinguishes between the upper and lower classes.
 - b. The second is the social conflict between individuals. Where this conflict has differences of opinion or differences in goals between one individual and another.
2. The causes of social conflict in this study are:
 - a. Social conflicts between classes occur due to differences between the upper and lower classes. This is the upper class which is dominated by people who have more income, luxury homes, luxury cars, or commonly called the rich. While the lower class is usually dominated by the lower classes.
 - b. Social conflicts between individuals occur because of differences of opinion and goals that cause disputes between one individual and another.

B. Suggestion

A movie is an interesting tool for everyone, every picture in the movie contains the reality of life, for example in the form of social conflict. Social conflicts can occur because of many things. After conducting research on the Movie Parasites (2019) by Bong Joon-ho by conducting the social conflict of the main object, the author submitted several suggestions.

1. For Researchers

Despite the fact that the written research was far from the perfect word, researchers also noticed that the direct sources used for this research still lacked references and references of their own. Therefore, for the next author to further multiply the sources and references.

2. For viewers who watch Movie Parasite (2019).

It is hoped that the viewers who have watched Movie Parasite (2019) will be able to be good and wise viewers, viewers who can understand the purpose of the

performances loaded, and that the message to be delivered at all performances can be a solution for all viewers.
