ABSTRAK

Ayu Ukhti Muslimah/A320190138. **AN ANALYSIS OF INDONESIAN-ENGLISH CODE MIXING USED BY COLLEGE STUDENTS: COLLEGEMENEFESS TWITTER ACCOUNT.** Skripsi. Fakultas Keguruan dan Ilmu Pendidikan, Universitas Muhammadiyah Surakarta. Agustus, 2023.

Penelitian ini dilatarbelakangi oleh fenomena code mixing yang semakin meluas di kalangan anak muda, salah satu fenomena yang terkenal adalah “bahasa Jaksel”. Fenomena bahasa ini tidak hanya terjadi di wilayah Jakarta Selatan, namun sudah meluas di berbagai wilayah di Indonesia. Penelitian ini bertujuan untuk mengetahui jenis & alasan penggunaan campur kode oleh mahasiswa dan pandangan mahasiswa tentang fenomena campur kode. Penelitian ini menggunakan metode kualitatif. Dalam menganalisis data, penelitian ini menggunakan teori campur kode dari (Hoffman, 1991). Sumber data diambil dari akun Twitter Collegemenefess dan hasil kuesioner yang dibagikan kepada mahasiswa dari berbagai perguruan tinggi. Hasilnya menunjukkan bahwa dari 434 ungkapan, terdapat tiga jenis campur kode yang digunakan oleh mahasiswa di akun Twitter Collegemenefess. Data tersebut antara lain 367 data campur kode intra sentensial, 70 data campur kode intra leksikal, dan 101 data yang melibatkan perubahan campur kode pengucapan. Alasan terjadinya campur kode oleh mahasiswa lebih dominan dipengaruhi oleh faktor internal seperti keinginan untuk memperbaiki kemampuan bahasa Inggris daripada faktor eksternal seperti keinginan untuk mengikuti trend. Mahasiswa memandang bahwa fenomena campur kode merupakan dampak positif dari globalisasi sehingga campur kode tidak dilihat sebagai trend yang harus diikuti sebagai gaya hidup, tetapi sebagai kebutuhan dalam menghadapi tuntutan zaman yang semakin modern.

ABSTRACT

Ayu Ukhti Muslimah/A320190138. **AN ANALYSIS OF INDONESIAN-ENGLISH CODE MIXING USED BY COLLEGE STUDENTS: COLLEGEMENEFESS TWITTER ACCOUNT.** Research Paper. Faculty of Teacher Training and Education, Muhammadiyah University of Surakarta. August, 2023.

This research is motivated by the phenomenon of code mixing which is increasingly widespread among young people. One of the well-known phenomena is the "Jaksel language". This language phenomenon does not only occur in South Jakarta, but has spread to various regions in Indonesia. This study aims to find out the types & reason of using code mixing by college students and the college student's point of view about code mixing phenomenon. This study used qualitative method. In analyzing data, it used code mixing theory by (Hoffmann, 1991). The source of data was taken from Collegemenefess Twitter account and the result of questionnaire that was shared to college students from various universities. The result shows that from 434 expressions, there are three types of code mixing used by college student in Collegemenefess Twitter Account. Those are 367 data of intra sentential code mixing, 70 data of intra lexical code mixing, and 101 data of involving a change of pronunciation code mixing. The reasons of using code mixing by college student were dominant affected by internal factor like desire to improve their English ability rather than external factor like desire to follow the trend. College students view that code mixing phenomenon is the positive effect of globalization so that code mixing is not to be seen as a trend that must be followed as a lifestyle, but as a necessity in the face of increasingly modern demands.
