ABSTRACT

The Qur'an is a book that Allah revealed to the Prophet Muhammad through the Angel Jibril. The Qur'an is a guide to human life on Earth. So maintaining glory is a duty for all humans, especially Muslims in the world. One way to preserve the Qur'an is to read and memorize it and study the verses in it. Memorizing the Qur'an has many advantages. In fact, Allah promises to reward those who memorize the Qur'an with His heaven. In maintaining the sanctity of the Qur'an, SMP IP Al-Madinah is trying to create a program that focuses on the field of Tahfidzul Qur'an. The program is a grouping of students with a certain level of memorization into the Tahfidzul Qur'an halaqah according to their abilities. One of these programs is the excellence program for Tahfidzul Qur'an. The excellence Tahfidzul Qur'an program is a program that develops students' ability to memorize the Al-Qur'an with the aim of producing students who have good and extensive memorization.

The aim of this research is to determine the strategies, methods and supporting and inhibiting factors of Tahfidzul Qur'an as an excellence program at SMP IP Al-Madinah Nogosari. The research method used is descriptive qualitative. The data taken in this research is in the form of interviews, observation and documentation.

The results of this research are SMP IP's strategy for developing students' potential in the field of Al-Qur'an by creating an excellence program for Tahfidzul Qur'an. The memorization method applied is the talaqqi method, namely the teacher meets directly with the student. The target that excellence halaqah students must achieve is 2 juz in one semester. There are several factors that support and inhibit the implementation of this program, namely internal factors and external factors. The author hopes that this research will be useful for schools, universities and memorizers of the Al-Quran. And the author also provides suggestions for using this research as best as possible and for future researchers to develop research in the field of the Al-Qur'an.

Keywords : Tahfidzul Qur'an, Excellence Programs, and Methods.
